 Reporting Period 10/01/2012 - 03/31/2013 Run

X The Client Level Data extract has not passed the HRSA ADR Validations. Please review the following messages and correct the client records

ADR XML Data Extract - Validation Errors

E2ID	Message
SB021230	Enrollment status mapping is incorrect
CF021286	Enrollment status mapping is incorrect
JP100027	Enrollment status mapping is incorrect
AS100258	No Insurance Data for this record
AS100258	Enrollment status mapping is incorrect

eCOMPAS checks to make sure your data meets HRSA requirements and allows you to easily correct nonconforming records interactively, reducing the back and forth associated with uploading files to HRSA and then failing HRSA's data quality tests
