

# eCOMPAS RSR Reporting

The eCOMPAS Visual RSR module allows the Provider to view its data in graphical aggregate form and conduct quality assurance before it submits it to HRSA.

If the data needs to be updated, eCOMPAS provides the Provider with drilldown capability, so that you can click on any number to see the client records that comprise that aggregate number.

...which allows the Provider to go to any client's record, and update their data accordingly. Changes are reflected immediately in the RSR, for the correct reporting time period. This is the eCOMPAS Time Machine feature, and allows staff to correct past data historically, without creating problems in current data.

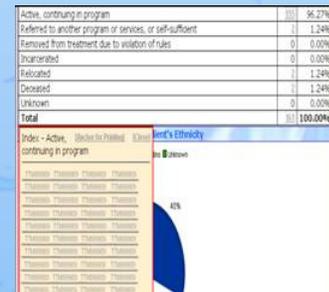

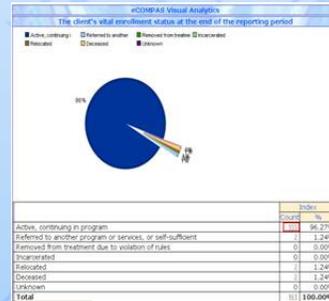

eCOMPAS checks to make sure your data meets HRSA requirements and allows you to easily correct nonconforming records interactively, reducing the back and forth associated with uploading files to HRSA and then failing HRSA's data quality tests.

And exporting the data to HRSA is easy.

So the eCOMPAS Clickable RSR module is a very user-friendly tool that improves data quality and typically saves dozens of hours per agency per reporting period.

The screenshot shows a client record form with the following fields and values:

- Client Information: [Name, DOB, SSN, etc.]
- Client Information: [Address, City, State, Zip]
- Client Information: [Gender, Race, Ethnicity]
- Client Information: [Religion, Education, Employment]
- Client Information: [Marital Status, Children]
- Client Information: [Substance Use, Mental Health]
- Client Information: [Other Services]

The screenshot shows an error message: "The Client Level Data extract has not passed the validation. Please review the following messages and correct the client records." Below the message is a table with the following data:

EZID	Message
12345	Ethnicity is not set for this record
67890	Ethnicity is not set for this record
11111	Ethnicity is not set for this record

The screenshot shows a message: "The RSR Data File is ready to download." Below the message is a button labeled "Download Data File". To the right of the button is a text box with the following text: "Right-click here to download pictures. To help protect your privacy, Outlook prevented automatic download of some pictures in this message. To help protect your privacy, Outlook prevented automatic download of some pictures in this message. To help protect your privacy, Outlook prevented automatic download of some pictures in this message." Below the text box is a button labeled "Download Pictures".

**Aloha**, come and visit the Hawaii exhibit-booth or check out one of the collaborating workshop series and hear how grantees, providers and other partners at national and local levels are helping each other with **web-based tools and solutions**.

*"Thanks SO very much for your help, your positive attitude and your expertise! You have no idea how wonderful they all are!"*

*Grantee Administrator*

*"I have been "taking" the survey on the e2 site and falling madly in love with it!! I cannot wait to show it to my network! Sadly, my reality is that I must lament that I did not know you sooner!"*

*HIV Planning Council Coordinator*
